Testimonials

What our students say

"I used to spend an entire afternoon running between offices to submit a withdrawal form. With SUMIS I submitted it in 5 minutes and got approved the next day — I could track exactly where it was."

[Student Name]
BS Computer Science, 6th Semester

"The complaint system actually works. I reported an AC issue in Lab 3, it got categorized as high priority and was fixed within 48 hours. First time I felt like my complaint was taken seriously."

[Student Name]
BS Software Engineering, 4th Semester
